The main reason I chose the game is because there is already an implementation and it is not too complicated to add. My ultimate goal is that I want to write a book about how to build such a game, so I want the game to be as small and simple as possible. I know about LOST, so your game will most likely be a game of chance. I don't mean a game where you get punks out of jail. I would like the game to have a more 'free-form' plot, so you don't get locked in a dungeon and forced to play games with your warden, but more like an adventure game, where you play along with the characters and there is a more free-form plot. I want the whole game to be a comic book, or at least the beginning, since I'm just starting out.Q: Using django-admin to get permissions on a model can give an error I have a model like: from django.db import models from
